

# Critical Accounts

David Boje and Grace Ann Rosile  
Cabrini University Doctoral Seminar

# What is a critical account

- It is accounting done in the voice of the otherwise voiceless.
- Instead of accounting for top brass, or shareholders, it is an account (a storytelling) from the those affected by the enterprise
- It can even be ‘who speaks for the trees’”
- Declaring a mountain or river as a legal person, give opportunity for a ‘critical account.’
